

How Well is Your School Health Program Integrated into the School Community?

Date _____ SBHC _____ Name _____ Position _____

Integration Principles <i>School and Health Partners...</i>	Strength	OK for Now	Could be Better	Urgent Gap	Not Sure	Implication(s) for Action
1. Develop mutually supportive <i>policies and procedures</i> that advance student health and learning						
2. Implement <i>school-wide strategies and frameworks</i> that support health and academics and help at-risk students						
3. Implement <i>collaborative leadership systems and structures</i> to plan programs and direct resources to at-risk students and their families						
4. Implement integrated school-health <i>programs and services</i> that support school goals, and target student populations of concern						
5. Utilize <i>education and health data</i> to drive policy and program development						
6. Engage in <i>joint resource development</i> (e.g., fundraising, business partnerships, professional development) to support priority programs and services
