

School Based Flu Vaccine Administration

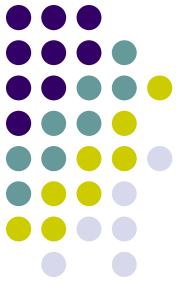

Judith Covich, MA, BSN, RN
Director, School Health Services
Montgomery County Department of Health and Human Services
Public Health Services

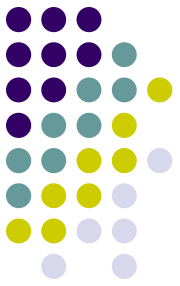

School Based Flu Vaccine Administration

- Initial goals for school based seasonal flu vaccine campaign were determined following the onset of novel H1N1
- Vaccination of students is part of a coordinated prevention effort to prevent and control flu in the greater community

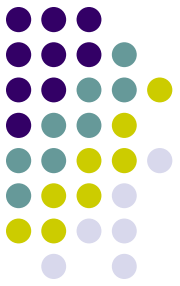

School Based Flu Vaccine Administration

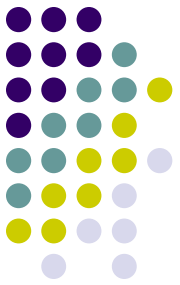

- School setting is an efficient setting for influenza transmission.
- Prevention of influenza in children results in decreased influenza among all age groups in the community

School Based Flu Vaccine Administration

- **Experience**
 - School Based Health Centers
 - Head Start and Pre-K Classes
- **Experience of other jurisdictions**

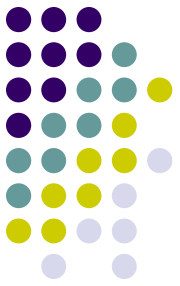

School Based Flu Vaccine Administration

Objectives

- Vaccinate 32,000 students(50% of enrollment) in 131 elementary schools including Pre K-Head Start with seasonal flu vaccine.
- Offer vaccine to middle and high school students and community at large at clinics held in the community.
- Vaccinate students with H1N1 vaccine when vaccine becomes available; delivery model to be determined by CDC priority and target groups, amount available and logistical issues.

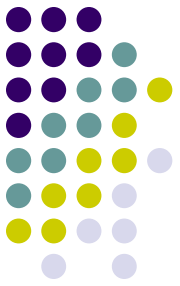

School Based Flu Vaccine Administration

We started with what we knew:

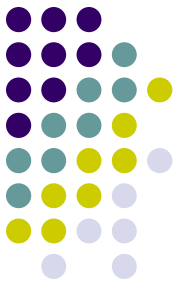

- Primary vaccine: Flu Mist for 50% of population
- Second dose Flu Mist -- 10-30% of students
- IM Vaccine-- 10% of students
- Complete Dose #1 in 4 weeks (10-14 schools/days)
- 1 minute/child to administer Flu Mist
- The lapse between Dose 1 and Dose 2=28 days

School Based Flu Vaccine Administration

- **Next, estimated for each school~**
 - Doses of FluMist (1&2) and IM
 - Vaccinators
 - Logistical support
- **Planned and recruited staff and volunteers**

School Based Flu Vaccine Administration

Timeline for School Based *Seasonal* Flu Vaccine Administration

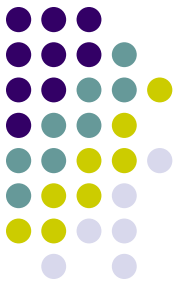

- Notification of School Based Flu Plan to all schools
 - Websites-School District/County
 - Parent Letter
 - Consent form for Seasonal Flu Vaccine 9/01/09
- Notification of vaccination date 9/09-10/09
- Start seasonal flu vaccination Dose #1 9/23/09
- Start seasonal flu vaccine Dose #2 10/24/09
- H1N1 notice TBD

School Based Flu Vaccine Administration

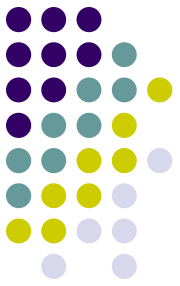

- Engage school administration and School Health staff
- Provide training and guidance to health staff
- Plan for use of available workforce and logistical resources
- Define roles and responsibilities
- Develop communication plans and mechanisms

School Based Flu Vaccine Administration

- **Engage and collaborate with local school system, county and other stakeholders**
 - Collaborative planning process with local school system, PTA, Volunteer Center, Medical Reserve Corps, other county agencies.
 - Updates and feed back on local, state and CDC conference calls
 - Updates and feed back on local, state and CDC conference calls

School Based Flu Vaccine Administration

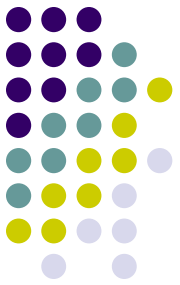

- **Provide training and guidance to health staff**
 - All staff briefed by local and state leadership
 - Hands on FluMist and IM vaccine training

Sample Clinic Flow

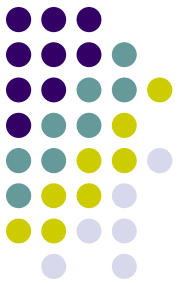

- **School with 450-600 students**
- **4 vaccine stations**
- **5-6 Logistic Assistants**
- **1 SHRA**
- **1 sub SHRA or volunteer for Health Room coverage**
- **SCHN will administer traditional flu shots at a later time**

DIAGRAM OF ADMINISTRATION PLAN

School Size 450 – 600 students

School Based Flu Vaccine Administration

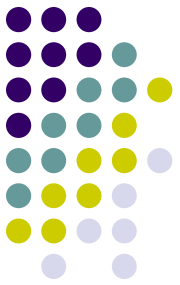

The Knows and Unknowns of

- Supplies
 - Refrigerator thermometers
 - Handsanitizer
 - Red bags
- Delivery to schools
 - Coolers
- ...and Shipments of Vaccine

Roles and Responsibilities

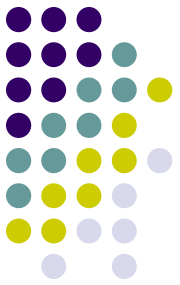

School Nurse

- **Role->Coordinates Preparation**
 - Coordinates with Principal or designee clinic re space and recruitment of parent volunteers
 - Reviews all consent forms
 - Determine if student gets flu mist or IM
 - Requests class lists
 - On day of vaccine clinic, reviews roles and responsibilities with school based team
 - Completes clinic reports
 - Plans for 2nd dose vaccinations and injectables

Roles and Responsibilities

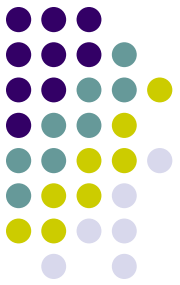

School Nurse or other authorized health professional

- **Role-> Vaccinator**
 - Confirm student identification
 - *Reviews consent form prior to administration*
 - Observes student for signs of illness
 - Administers Flu Mist
 - Documents Administration on Consent Form

Roles and Responsibilities

School Health Room Aide

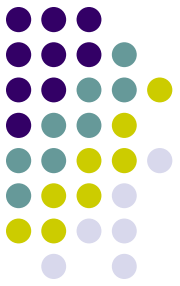

- **Role->Intake**

- Before vaccination date, organizes consent forms by class/teacher
- On vaccination day, checks Student Identification and matches Consent form
- Directs Logistic Assistants in moving students to vaccinators

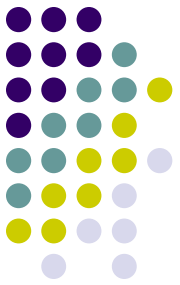

Roles and Responsibilities

Parent, school, community volunteers

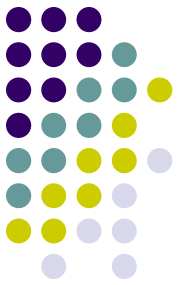

- **Role->Logistic Assistants**
 - Assists in classroom to line up students
 - Escorts Students to Clinic Area
 - Assists in Waiting Area
 - Escorts Student to Vaccinators
 - Escorts Student back to classroom

Roles and Responsibilities School Administration

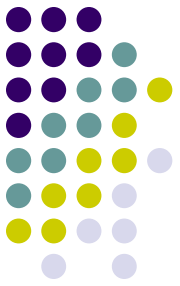

- Translation of consent forms and parent letters
- Post flu campaign information on MCPS Website
- Local school assistance—principal
 - Identify space—media center, all purpose room
 - Identify school contact to assist nurse with logistics and recruiting parent volunteers
 - With nurse share School Based Vaccination Plan with staff
 - Copy and distribute parent letters and consent forms via back-pack
 - Notify parents of school's vaccination day(s)

Roles and Responsibilities School System

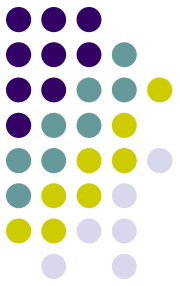

- Teacher
 - Collect returned consent forms from students in class & forward to health room staff
 - On day of vaccination, teachers will receive a list of students to be vaccinated and name tags for each. A logistics assistance will come to class and escort the students to and from the vaccination area.

School Based Flu Vaccine Administration

- **Develop Communication Plans and Mechanisms**
 - Information and Consent forms posted on School System and County
 - Sent home in Backpacks
 - On Connect Ed message
 - Available for Principal and PTA newsletters

Scenarios for H1N1 Vaccine Administration to Students

H1N1 vaccine arrives mid October, 2009, supply is limited

- **Start with students in Head Start-PreK**
- **Students with underlying health conditions and pregnant teens**

When enough vaccine is available open to Target Groups recommended by CDC

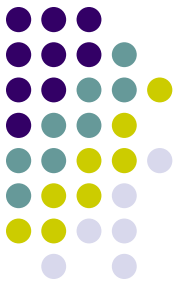

- **All students-public and private (age 5-24)**
- **Clinics at high schools outside of school hours**
- **Also community locations**

Goal: Vaccinated Students

Mission: In Process
